## PROFESSIONAL STATEMENT

I'm a designer with 10+ years of experience in UI, UX, graphics, and typography design. Specializing in the multiple software to deliver high-quality products, including wireframe, screen, motion, and prototype. I'm capable to work in a trending way, such as creating design template and library for the team, execute projects in agile development, and collaboration on cloud platform.

Outside of work, with a passion for video taking, editing, and sharing some interesting subjects. I started my YouTube channel in early 2021. So far my popular video reaches 9,000 watches time and grows everyday.

## WORK EXPERIENCE

Oct-2020  
Present

### Design freelancer, YouTube channel as a side project

I'm currently working on cases including mobile app and the web, from UX to UI design, prototype and motion spec delivery.

Oct-2020

### Staff UX designer, KaiOS Technologies

The major task is apps' UI design for smart feature phone. I define UX, UI template, and library for the team, and participate in a cutting-edge project which uses 5G edge technology to achieve real-time AR.

I observe very deep of the KaiOS product and users' behavior, based on the insight, I publish 2 pieces on the blog to show our design thinking.

I also design material for branding, marketing, and games.

Dec-2007

### Manager, UI & UX Designer, HTC

My UI design skills develop during this period. Varied mobile devices include smartphone, pad, and accessory, I participate in almost every apps' UI design and that across platform from Windows mobile OS to the first generation of Android. In my last year at HTC, I transfer to an UX designer and that broadens my vision from UI to experience field.
